

B2B PORTAL

Lathell Nutraceuticals LLC

Global Supply • Institutional Programs • Strategic Manufacturing

The Lathell Nutraceuticals B2B Portal is designed for professional buyers, distributors, manufacturers, and institutional partners seeking structured access to our product portfolio, technical documentation, and commercial supply programs.

This portal supports:

- International distributors
 - Food & beverage manufacturers
 - Healthcare and wellness institutions
 - Government and NGO programs
 - Licensing and white-label partners
-

CORE BUSINESS LINES

Lathell Nutraceuticals operates across four commercial tracks:

1. Functional Ingredient Supply

Bulk industrial ingredients for reformulation and institutional nutrition:

- SAFE SUGAR™ – Very-low-glycemic sugar replacement
- SAFE SALT™ – Sodium-free and reduced-sodium salt platform

Applications include:

- Food & beverage manufacturing
- Institutional kitchens
- Medical nutrition programs
- Reformulated packaged foods

Supply models:

- Metric-ton bulk orders
 - Long-term procurement contracts
 - Regional supply agreements
-

2. Finished Nutraceutical Products

Condition-focused capsules and powders for:

- Retail pharmacy
- Distributor networks

- Institutional wellness programs
- White-label partners

Product families include:

- Metabolic & glycemic health
- Kidney & urinary support
- Gout & uric acid
- Cardiovascular support
- Sleep, stress & mood
- Pain & inflammation
- Longevity & cellular aging

Commercial models:

- Wholesale distribution
 - Private label
 - Regional exclusivity
 - Institutional supply
-

3. Diagnostic & Monitoring Platforms

- BioAge™ Device – Biological age analyzer
- BSS™ – Bio-Signal Stability Scanner

Use cases:

- Wellness programs
- Clinical support environments
- Institutional health assessment
- Preventive care initiatives

Commercial models:

- Device sales
 - Program licensing
 - Institutional deployment
-

4. Coherence Intelligence Division (LCIE™)

The Lathell Coherence Intelligence Ecosystem (LCIE™) supports:

- Biological stability modeling
- Program design
- Institutional optimization

This division supports:

- Strategic planning
- Long-term program design
- System-level health initiatives

DOCUMENTATION ACCESS

Through the B2B Portal, partners may request:

- Product specifications
- Technical data sheets
- Safety documentation
- Certificates of Analysis (COAs)
- Regulatory summaries
- Product catalogs
- Pricing tiers
- MOQ schedules

Sensitive documents are provided under:

- NDA

- Partner vetting
 - Commercial qualification
-

COMMERCIAL TERMS

Commercial relationships are structured based on:

- Order volume
- Geographic scope
- Product category
- Regulatory environment
- Supply duration

Available structures include:

- Wholesale pricing
 - Volume discounts
 - Exclusivity agreements
 - Program contracts
 - Licensing fees
-

QUALITY & COMPLIANCE

Lathell Nutraceuticals maintains standards aligned with:

- cGMP manufacturing
- Ingredient traceability
- Conservative labeling
- Regulatory-conscious claims
- International shipping standards

We prioritize:

- Safety
 - Stability
 - Consistency
 - Long-term reliability
-

ONBOARDING PROCESS

1. Partner application
2. Credential verification
3. NDA execution
4. Commercial pathway selection
5. Documentation release

6. Pilot or first order
7. Long-term supply agreement

This ensures:

- Qualified partners
 - Controlled distribution
 - Brand integrity
 - Regulatory alignment
-

USE CASES

Our B2B platform supports:

- National diabetes programs
 - Hospital nutrition reformulation
 - Government salt-reduction initiatives
 - Pharmacy chain product lines
