

CREDENTIALS

Lathell Nutraceuticals LLC

Federal Registration & Institutional Readiness

Lathell Nutraceuticals LLC maintains active registrations and institutional readiness status across key United States federal and program systems. These registrations support eligibility for government programs, institutional procurement pathways, research initiatives, and export frameworks.

This document is provided to communicate readiness status **without disclosing sensitive identifiers publicly**.

Registration Status Summary

Lathell Nutraceuticals LLC maintains **active standing** within the following systems:

- **System for Award Management (SAM.gov)** — Active registration status
 - **Unique Entity Identifier (UEI)** — Assigned and active
 - **Commercial and Government Entity (CAGE)** — Assigned and active
 - **NIH eRA Commons** — Organization registration active
 - **USDA** — Small business participation status active
 - **Export–Import Bank of the United States (EXIM)** — Export support readiness active
-

What These Credentials Enable

These registrations support professional engagement in:

- **Government and institutional procurement** (supplier readiness, due diligence, program alignment)
 - **Research and innovation programs** (institution-level registration pathways)
 - **Public-sector pilots and supply programs** (nutrition, metabolic health, reformulation initiatives)
 - **International trade and export readiness** (export program alignment and facilitation)
-

Institutional Readiness Statement

Lathell Nutraceuticals LLC is structured to support institutional standards for:

- Controlled document release and recordkeeping
 - Compliance-aware communications and conservative representations
 - Professional procurement workflows (inquiry → qualification → documentation → order path)
 - Partner screening and IP protection protocols where applicable
-

Verification & Security Policy

For security and compliance reasons, the following details are **not published publicly**:

- UEI, CAGE, and other registration identifiers
- System screenshots or portal exports
- Internal registration artifacts and attachments

Full identifiers and evidence packages are released only to verified parties, including:

- Government agencies and contracting officers
 - Institutional buyers (hospital systems, NGOs, public entities)
 - Regulatory authorities and authorized reviewers
 - Approved commercial partners
 - Investors under NDA (as applicable)
-
