

Diveryna - Complete Colon Lining & Diverticulosis Support

Support your colon, soothe your gut, and restore digestive comfort - naturally.

Diveryna is a scientifically formulated supplement designed to support individuals suffering from diverticulosis, colon lining damage, and digestive inflammation. Unlike harsh laxatives or temporary remedies, Diveryna works from the inside out - nourishing and repairing the gut wall, calming inflammation, and promoting smooth, regular bowel movements.

Core Benefits

- Soothes inflamed colon tissue with Slippery Elm & Marshmallow Root
- Repairs the intestinal barrier using clinical doses of L-Glutamine and Butyrate
- Reduces discomfort with Boswellia Serrata, Turmeric, and Aloe Vera Extract
- Supports gentle, fiber-based regularity with Psyllium Husk and Inulin
- Boosts absorption of key actives with patented Bioperine

Why Diveryna Works

Diverticulosis and chronic colon inflammation weaken the intestinal wall over time. Diveryna is built to restore and protect that lining using a full-spectrum blend of:

- Soothing mucilaginous botanicals
- Amino acids that rebuild tissue
- Prebiotic fibers that promote a healthy microbiome
- Targeted anti-inflammatories for the lower intestine

Clean, Safe, and Powerful

- No artificial laxatives or stimulants
- Non-GMO, gluten-free, dairy-free, and vegan-friendly
- Safe for long-term daily use, including elderly and sensitive users
- Manufactured in a US-based GMP facility

Who It's For

- Adults and seniors with diverticulosis or IBS symptoms
- Individuals recovering from antibiotic damage or gut infections
- Anyone with irregular bowel movements, colon discomfort, or digestive lining issues

Suggested Use

Take 2 capsules daily with water. Can be taken with or without food. For chronic cases, consult your healthcare provider for long-term use.

Available in:

- 100-capsule bottles
- Bulk, white label, or private label formats for B2B buyers
