

HEMALYTICA™ ADVANCED – Product Information Sheet

Product Overview

HEMALYTICA™ ADVANCED is a breakthrough botanical supplement designed to mimic key functions of the kidneys without burdening them. It offers a safe, all-natural solution for individuals with Chronic Kidney Disease (CKD), or anyone seeking to cleanse and filter their blood without relying on renal pathways.

Key Benefits

- Promotes kidney-free detoxification of blood and tissues
- Supports safe removal of waste, toxins, and nitrogenous compounds
- Balances fluids and essential electrolytes without raising potassium
- Helps regulate blood pH and buffer acid buildup (metabolic acidosis)
- Enhances circulation and cardiovascular support
- Kidney-safe and stimulant-free – ideal for CKD patients

How It Works

Instead of using diuretics or harsh ingredients that burden weakened kidneys, HEMALYTICA™ ADVANCED utilizes a multi-system approach to purify the blood. It activates liver detox, supports lymphatic drainage, binds waste in the gastrointestinal tract, and enhances toxin removal through bile and skin. Ingredients are selected for their ability to bind uremic toxins, regulate acid-base balance, support electrolyte function, and improve vascular delivery.

Suggested Use

Take 2 capsules daily with water, preferably with a meal. For individuals with severe kidney disease or on dialysis, consult your healthcare provider before use.

Who It's For

- People with Chronic Kidney Disease (Stages 2–4)
- Individuals with poor renal filtration or toxin overload
- Health-conscious adults seeking non-renal blood detox
- Those sensitive to traditional detox or diuretic supplements

Safety & Disclaimer

This product is not intended to diagnose, treat, cure, or prevent any disease. Always consult with your physician before beginning any new supplement regimen, especially if you are pregnant, nursing, or have a medical condition.
