

PROCUREMENT

Bulk Safe Sugar™ for Industrial Food & Beverage Production

Overview

Lathell Nutraceuticals LLC supplies **Safe Sugar™** as a bulk industrial ingredient for food and beverage manufacturers, institutional nutrition programs, and public-sector reformulation initiatives. Safe Sugar™ is engineered to function as a **direct sugar replacement** while significantly reducing glycemic impact and metabolic risk.

This procurement program is designed for organizations requiring:

- Consistent large-volume supply
 - Technical documentation
 - Contract-based pricing
 - Global logistics coordination
 - Regulatory-ready specifications
-

Product: Safe Sugar™ (Industrial Grade)

Safe Sugar™ is a very-low-glycemic crystalline sweetener blend developed for:

- Industrial food processing
- Beverage manufacturing
- Bakery and confectionery reformulation
- Medical and institutional nutrition
- Public health and food security programs

Key attributes:

- Very low glycemic response
 - Sugar-like taste and mouthfeel
 - Heat-stable
 - Shelf-stable
 - Neutral flavor profile
 - Compatible with standard sugar processing equipment
-

Industrial Applications

Safe Sugar™ is suitable for:

- Soft drinks and functional beverages
- Baked goods and pastries
- Dairy and yogurt formulations
- Candy and confectionery
- Nutritional and medical foods

- Institutional food service
- Government nutrition programs

The product is designed to replace conventional sugar without requiring major formula redesign.

Procurement Models

1. Direct Bulk Purchase

For manufacturers requiring immediate ingredient supply.

Available formats:

- Sack (25 kg)
 - Drum
 - Palletized loads
 - Metric ton shipments
 - Container-level supply
-

2. Contract Supply Agreements

For ongoing production programs requiring locked pricing and guaranteed volume.

Includes:

- Annual or multi-year supply agreements
 - Fixed or indexed pricing models
 - Reserved production capacity
 - Forecast-based manufacturing
-

3. Institutional & Government Supply

For hospitals, NGOs, and public-sector nutrition programs.

Includes:

- Program-based procurement
 - Tender support
 - Regulatory documentation packages
 - Export and customs coordination
-

Bulk Specification Package

(Issued upon qualification)

Qualified buyers receive the **Bulk Specification Package**, which includes:

Product Form:

- White crystalline powder

Solubility:

- Highly soluble in water

Taste Profile:

- Sugar-like sweetness
- No bitter aftertaste

Processing Compatibility:

- Stable under heat
- Compatible with standard sugar processing lines

Shelf Life:

- 24 months (sealed, dry storage)

Storage:

- Cool, dry environment
- Food-grade storage standards

Packaging:

- Industrial sacks
 - Food-grade lined drums
 - Palletized shipping
-

Quality & Compliance

Safe Sugar™ is produced under:

- Food-grade manufacturing standards
- Controlled ingredient sourcing
- Batch traceability
- Certificate of Analysis (COA) availability

Documentation provided upon qualification:

- Product specification sheet
 - Safety data
 - Stability data
 - Quality compliance statements
-

Buyer Eligibility

Procurement access is limited to:

- Food & beverage manufacturers

- Ingredient distributors
- Institutional buyers
- Government agencies
- Licensed importers

All buyers must complete:

- Buyer qualification
 - Intended-use declaration
 - Volume disclosure
 - NDA (if technical files are requested)
-

Pricing Structure

Pricing is determined by:

- Volume tier
- Contract length
- Shipping region
- Packaging format

Preferential pricing is available for:

- High-volume buyers
 - Multi-year contracts
 - Strategic market partners
-

Logistics & Delivery

Lathell Nutraceuticals LLC provides:

- International shipping coordination
- Export documentation
- Customs support
- Freight consolidation
- Regional distribution partnerships

Delivery terms supported:

- FOB
 - CIF
 - EXW
 - Contract logistics programs
-

Procurement Process

1. Submit Procurement Inquiry
2. Qualification Review

3. NDA Execution (if required)
 4. Release Bulk Specification Package & Pricing Range
 5. Buyer submits non-binding Letter of Intent (LOI)
 6. Finalize specifications and logistics
 7. Purchase Order issued
 8. Production and delivery scheduled
-
