

Surgelene™ Global Opportunity Brochure

A Revolution in Post-Surgery Recovery

Every year, more than **300 million surgeries** are performed across the world — from life-saving procedures to elective treatments. Millions of patients struggle with **slow healing, scarring, and inflammation** during recovery.

Surgelene™ by **Lathell Nutraceuticals** is a next-generation **recovery and tissue regeneration formula**, clinically designed to support healthy healing, strengthen connective tissue, and promote natural inflammation balance. Manufactured under **GMP and FDA-compliant standards**, it represents a new category of safe, science-based nutritional recovery support.

FOR BUYERS (Hospitals, Pharmacies, Clinics)

Surgelene™ – Post-Surgery Recovery Reinvented

Surgelene™ provides a trusted nutritional solution that complements hospital protocols and patient rehabilitation.

Key Benefits:

- Supports post-surgery recovery naturally
- Helps maintain healthy tissue and skin integrity
- Safe for kidney and liver-sensitive patients
- Reduces inflammation and oxidative stress

Stock Surgelene™ and empower faster, stronger patient recovery.

FOR SELLERS & DISTRIBUTORS

A Global Market Opportunity in Recovery Nutrition

With more than **300 million surgeries per year**, Surgelene™ represents a powerful, universal market opportunity. This premium formula bridges the gap between clinical efficacy and natural healing.

Key Selling Points:

- Broad applicability across surgical recovery categories
- High repeat-purchase potential
- Supported by global marketing and compliance material
- Premium brand under the Lathell Nutraceuticals portfolio

Distribute Surgelene™ – position your company at the forefront of recovery science.

FOR IMPORTERS

A Universal Product for Every Healthcare System

Formulated in the U.S.A. under **GMP** and **FDA** oversight, Surgelene™ is export-ready and fully supported by documentation for global import and compliance.

Why Partner with Lathell Nutraceuticals:

- Export-ready with compliant labeling and documentation
- Shelf-stable and high-demand product
- Supported by professional marketing and medical education assets
- Applicable across hospitals, pharmacies, and rehabilitation centers

Bring Surgelene™ into your market – meet a universal healthcare need.

FOR INVESTORS

The Global Recovery Market is Expanding – Surgelene™ Leads the Way

The post-operative care and recovery nutrition segment exceeds **\$50 billion annually**, and Surgelene™ sits at its center – combining evidence-based formulation, medical credibility, and global scalability.

Investment Highlights:

- Addresses a 300+ million patient annual demand
- Scientifically backed and clinically relevant
- GMP / FDA-compliant U.S. manufacturing
- Scalable production and regulatory model
- Synergistic growth with Lathell's product portfolio

Invest in Surgelene™ – a global breakthrough in regenerative recovery.
